

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-37 are allowed. Key to allowance to these claims is the remarks of 09/10/2009. In particular the cited unexpected results when using the polymer in a thickened oil composition, and the arguments stating that acrylic copolymers made via controlled radical polymerization are fundamentally different than those made with free radical polymerization.
2. Regarding claims 1-37, a thickened oil composition that contains from 0.05 to 40% of a block copolymer, having at least one acrylic block, synthesized by controlled radical polymerization could not be found in the prior art.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANK C. CAMPANELL whose telephone number is (571)270-3165. The examiner can normally be reached on Mon-Fri 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Walter Griffin can be reached on 571-272-1447. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
